Profile Summary

Enthusiastic Software Developer with a solid foundation in development principles and a passion for creating end-to-end applications. Strong problem-solving skills, adaptability, and a collaborative mindset drive me to contribute to real-world projects while continuously learning and growing professionally.

Education

Knowledge Institute of Technology, Salem, TN
B.Tech in Information Technology, CGPA: 7.8 (up to VI semester) — May 2023 – May 2027

Skills

- **Languages:** Java, Python, C, C++
- **Web Development:** HTML5, CSS3, JS, React.js, FastAPI
- **Databases:** MySQL, MongoDB
- **Tools:** GitHub, VS Code, Vercel, Netlify

Experience

Data Analyst Intern | ASP RCM Solutions, Chennai — Aug 2025 – Sep 2025

- Supported the analytical team by performing basic data cleaning to ensure information accuracy, while assisting in the generation of internal reports and operational summaries used to project progress.

Projects

Bestie | React.js, FastAPI, Ollama, Cloudflare — GitHub | Live Demo | Jan 2026

- Engineered a full-stack conversational AI ecosystem enabling seamless interaction with local LLMs, featuring a robust API architecture that prioritizes data privacy and low.
- Optimized deployment through one-click automation for environment setup and model validation, ensuring secure external access via encrypted HTTPS tunneling and API-key authentication protocols.

Smart IoT Pet Feeder | Embedded Systems & IoT — Oct 2024 – Present

- Architected a remote hardware-software system allowing users to manage pet nutrition through real-time manual triggers via a web dashboard or precision-timed automated feeding intervals.
- Advancing the platform into a commercial-grade product by integrating computer vision for intelligent portion control based on food levels and establishing two-way audio-visual communication.

AskYourPDF | Python, LLMs, RAG, NLP — GitHub | Jul 2025

- Developed an intelligent document retrieval system using Retrieval-Augmented Generation (RAG) to allow users to query complex PDF data using natural language processing, significantly reducing the time required for manual document analysis.

Publications

Blockchain Technology in Secure Voting Systems: Enhancing Transparency and Trust
Published in IEEE Xplore, 2024.
Authors: Sowndariya K, Gomathi A, Sachidhanandam P, Kavinkumar R, Sanju P, Ramkumar R.
DOI: 10.1109/ICCES63552.2024.10860165

Certifications & Achievements

- Gen AI — Infosys Springboard — Jan 2025
- AI Foundations Associate — Oracle University — Oct 2025
- Generative AI Professional — Oracle University — Oct 2025
- Fundamentals of Artificial Intelligence — NPTEL — Jul – Oct 2025
- Cloud Computing — NPTEL — Jan – Apr 2025
- Industry 4.0 & Industrial IoT — NPTEL — Jul – Oct 2024
